Nur Haziqah Binti Azmi

Diploma in Game Design & Development student at Sultan Idris Education University (UPSI), currently in Semester 4. Experienced in Unity 2D game development, C# programming, game mechanics, level design and visual storytelling. Seeking a 4-week internship placement to apply my technical and creative skills while gaining professional industry experience.

TECHNICAL & CORE SKILLS

- Game Development: Unity 2D, C#, Game Mechanics, Level Design, Playtesting, Basic 3D Systems
- Programming: Object Oriented Programming, Player State Controllers, UI Canvas Management, PlayerPrefs / Data Persistence
- Art & Design: 2D Concept Art, Character Design, Storyboarding, Asset Creation
- Tools: Adobe Photoshop, Adobe Illustrator, AI-assisted Development Tools

FEATURED GAME & SOFTWARE PROJECTS

DARK FOREST – Unity 2D Survival Game

Unity • C# • Game Design

- Programmed thermal health mechanics using C#.
- Designed 3 playable levels featuring AI pursuit mechanics, environmental hazards and enemy hitboxes.
- Implemented UI feedback and particle weather effects to enhance gameplay atmosphere.

EARTH MISSION – Interactive 2D Educational Game

Unity • C# • UI/UX • Game Design

- Developed drag-and-drop mechanics with tag validation for recycling waste sorting.
- Built dynamic UI Canvas systems and C# scene managers for quiz flow and score tracking.

CONCEPT ART & DESIGN EXPERIENCE

- Character & Asset Design: Designed full-body character blueprints, clothing callouts, and rendered concepts for academic projects.
- Cinematic Storyboards: Created multi-panel action storyboards demonstrating camera movement callouts, shot composition, and narrative pacing.
- Collaborative Illustration: Worked alongside peers on detailed digital artwork rendering and character studies.

EVENTS, WORKSHOPS & CERTIFICATIONS

- Participant – Global Game Jam (GGJ) 2026: Collaborated with developers and designers under tight deadlines to rapidly prototype, program, and design game mechanics within a 48-hour hackathon environment.
- Attendee – Masterclass Adobe Illustrator Workshop: Gained hands-on practical training in vector graphics, scalable asset creation, and graphic design workflows for UI/UX and game art.
